Access to useful and practical materials like this is much appreciated.I appreciate being able to access books like this.Shipping worked in a timely manner.

Very helpful guide on dealing with grief.

I felt like this book really helped me to understand that it is uncomfortable to discuss the death of a friend's child, but that there is a great need for the grieving family to talk about their lost loved one. This book helped me to understand better what my friend and her husband must be enduring. I know that I will not understand their individual feelings, but the author has shared what her grieving was like to help those of us who are friends of the grieving families.
