Best Sellers Rank: #510,746 in Books (See Top 100 in Books) #171 in Books > Law > Criminal Law > Evidence #308 in Books > Law > Rules & Procedures > Courts

## Customer Reviews

This book was very user-friendly, meaning it was easy to read, fun, and well-organized. The author did a great job compiling interesting, well-versed cases and organizing them in such a cohesive fashion. The book was very well taken-care-of.

For the 0 people looking at this book just for fun and not because it's required for a class, It's well written and a reasonably interesting read.

excellent book to have as reference and for law school students the book is in excellent condition and the price was the best part I recommend the seller

the cases are clear, the notes are clear, it's easy to read... this is a great casebook for learning evidence.

everything i expected

This is a fantastic textbook for teaching evidence. It is divided up very clearly and goes through the rules and doctrines one by one with cases that are on point and well edited. The font size is nice. The book also lays out charts and well-organized discussions to explain some of the more complex

areas. And thankfully, it doesn't waste your time with philosophical discussions about the nature of truth/proof or a "more perfect law" that are of little interest to the student seeking to prepare for the exam. Nor does it have little notes directing you to hundreds of other cases that you will never read. I highly recommend this book

It is what it says it is. Almost exactly the same as the newer edition.

Are other people in law school really too dumb to review books in the book review box? People don't care if there were more notes in your used textbook than you thought there would be, or if the shipping was slow. This is a place to review books. This was a fantastic evidence book, and the best casebook I had in any law school class by far. It first goes over each evidentiary rule, then gives plentiful examples to illustrate the rule. It is like a casebook and evidence study guide combined. I never had any say in which casebooks I used, but if you're able to request a specific casebook, request this one.

This is the best legal textbook I've ever used, hands-down. The writing is straightforward and clear, and the examples are interesting and well-written. Really a marvelous tool for teaching and learning evidence. I've read many of the alternatives as well, and they can't hold a candle to Fisher in terms of writing, clarity, or organization.
