Tiny Houses: 7 Micro House Plans That Look Cooler Than Your Apartment

The need for shelter and a proper living comes as the most innate need for the mankind. From the very time of the birth, till the death, everyone needs a proper shelter and living so that all life processes can be carried along very well. The modern man has to face a two-way challenge, in this regard. At one end he has to face the economic pressures and on the other hand he has to seek some good living place. In this book the reader will find house plans with a new perspective. Although the need for shelter and a proper living appears to be the most basic need yet the criterion pertaining to a living have changed a lot. The modern criterion has pushed the prices of houses and apartments to a highest level. Today people are unable to afford their own house or even a small apartment. It is because of this reason that a large number of people are living in rented apartments and houses. The hand-made house plans can be the biggest help in this aspect so that everyone can afford a beautiful yet economical living. The outstanding discussion which is catered in this book for the readers will relate to the following principal issues, which will help almost all of the readers to relate to various kinds of house plans. The introductory information for the reader to highlight the importance of efficient house plans, which are both beautiful as well as economical. An account of seven different house plans including the craftsman cottage plans and other types of variable house plans.
