Customer Reviews

Horrible, not worth the money. Pages were out of order. And part of the print was cut off on each page. Way way way over priced!

WOW \$15? For very beginner drawing -techniques are beginner. Major Rip off. I am very disappointed! The last step in the 7 or 8 step drawing is just a repeat with a dumb line like "here you go" or "voila" or some other silly with a repeat of the "drawing".....

It is not terribly bad as it is for kids but I wish the different steps came highlighted in red. The pages are so thin that you can see through thus making it difficult to know if the step is something showing from the next page.

It only shows how to draw the faces, which I didn't realize when I ordered it.

Very very basic and OVERPRICED. Was hoping for a little more advanced stuff since it was a limited edition. Still may return it after my daughter opens it after Christmas.

Being a limited edition I was hoping that it would teach how to draw the whole character. But it only walks you through the head. However, my 7 year old enjoyed it.

My student LOVES this book!

Not a helpful drawing book.
