Customer Reviews

For more than twenty years, the Insiders' GuideÂ® series has remained the essential source for in-depth travel and relocation information. Each guide is written by locals and true insiders and offers a personal, practical perspective that readers everywhere have come to know and love. The allure of its soaring mountains, pristine glaciers, and spectacular wildlife has been drawing visitors and new residents to Alaska for years. From salmon fishing to dogsledding, from cruising glaciers to flight-seeing in the bush, and from dancing under the midnight sun to viewing the aurora borealis, this authoritative guide will show you how to take full advantage of the many wonders of the Last Great Place. Inside you'll find:Â Countless details on how to live and thrive in Anchorage and Southcentral Alaska, from the best local shopping to the lowdown on real estate Comprehensive listings of restaurants, lodgings, and attractions The inside scoop on the real Anchorage, including the Duct Tape Ball, shopping for Native crafts, and world-class performances at the Alaska Center for the Performing Arts Sections dedicated to children, fishing, history, and much more

Deb Vanasse is the author of several books set in Alaska andÂ has traveled extensively throughout

the state. She lives in Fairbanks, Alaska.

The recommended food places were not as described. Atmosphere descriptions were also not that accurate. Museums were greatly overrated. Driving directions could have been a lot clearer. But the referenced tours and phone numbers were very helpful. The recommended places to stay sometimes were great (ones they referenced in Denali) and sometimes really bad (ones referenced in Seward). This may be used as a second or back-up book, but don't let it be the only guide you take with you to the Anchorage area.

I was very disappointed when I received this book. It has a beautiful cover, and I was expecting some photos of the area. There are none. In reality, it is a very small paperback with thin paper and not enough substance. In addition, the book is sort of a tourist guide to where to eat, where to stay. I was hoping for more content.

The book was just what I was looking for to help plan my Alaska trip. It had most of the information I needed to properly make my plans.

I was blown away by how sharp this product is. It cut throw my very soft loaf of Italian without a single tear. I hesitated before I bought it because of another review who said it wasn't sharp enough, but mine is outstanding. the most professional service. feel very good . good. for Tina ,

I have the old version of the guide; a new one is being released in the summer of 2009 that may be more accurate. The guide was adequate, given its old age, but not spectacular. Like most guides, it is more optimistic about the quality of attractions, restaurants, and hotels than truthful. I would prefer a guide book that let's you know that some attractions are less exciting than others, so you know what is worth skipping. I ended up having to rely on the web to supplement the guide, using sites like tripadvisor to find more complete information on each destination. If I had to do it again, I would have bought a guide that was more specific to the hiking and wilderness activities I was interested in, instead of this general guide.

This does not offer much other than general information, but it does have a great list of dining, lodging, and shopping. The next edition is coming, so it may improve. But if you want to know where to eat, sleep, and buy and plan for your budget, this gives good info.
