Seeds Of Destruction: The Hidden Agenda Of Genetic Manipulation

Synopsis

This skillfully researched book focuses on how a small socio-political American elite seeks to establish its control over the very basis of human survival, the provision of our daily bread. Control the food and you control the people. This is no ordinary book about the perils of GMO. Engdahl takes the reader inside the corridors of power, into the backrooms of the science labs, behind closed doors in the corporate boardrooms. The author reveals a World of profit-driven political intrigue, government corruption and coercion, where genetic manipulation and the patenting of life forms are used to gain worldwide control over food production. The book is an eye-opener, a must-read for all those committed to the causes of social justice and World peace.

Book Information

Paperback: 360 pages

Publisher: Global Research; 1st edition (November 20, 2007)

Customer Reviews

If you want to learn why biotech corporations insist on spreading GMO seeds around the World you should read this carefully researched book. You will learn how these corporations want to achieve control over all mankind, and why we must resist... --Marijan Jost, Professor of Genetics, Krizevci, Croatia

If you want to learn why biotech corporations insist on spreading GMO seeds around the World you should read this carefully researched book. You will learn how these corporations want to achieve control over all mankind, and why we must resist... --Marijan Jost, Professor of Genetics, Krizevci, Croatia

The book reads like a murder mystery of an incredible dimension, in which four giant Anglo-American agribusiness conglomerates have no hesitation to use GMO to gain control over our very means of subsistence... --Anton Moser, Professor of Biotechnology, Graz,

Austria What is so frightening about Engdahl's vision of the world is that it is so real. In this new age of free markets, everything science, commerce, agriculture and even seeds have become weapons in the hands of a few global corporation barons and their political fellow travelers. --Dr. Arpad Pusztai, biochemist, formerly of the Rowett Research Institute, Scotland. The book reads like a murder mystery of an incredible dimension, in which four giant Anglo-American agribusiness conglomerates have no hesitation to use GMO to gain control over our very means of subsistence... --Anton Moser, Professor of Biotechnology, Graz, Austria If you want to learn why biotech corporations insist on spreading GMO seeds around the World you should read this carefully researched book. F. William Engdahl is a leading analyst of the New World Order, author of the best-selling book on oil and geopolitics, *A Century of War: Anglo- American Politics and the New World Order*. His writings have been translated into more than a dozen languages.

Although I haven't finished this book, I'm almost there. Very detailed information, and eye opening. It does start out with background information and how all of the GMO came about and why and who was involved - from long ago. Really wanted to read more about current events- maybe that's what I haven't gotten to read yet. This book will make you mad - at the powers to be and the rich that want to take control of the 4 major industries to have complete control over the world - and this is just one of those industries (FOOD) with the others being Medicine, Oil, and Money. You will find out by reading this book that the government and a few very wealthy individuals are controlling everything and not just in the US- but all over the world. I had no idea how far they had gone in controlling the resources for their use in the future. Great read, detailed, and some redundancy, but would recommend this for anyone wanting to know how far things have gotten out of hand and how blind we are to not fight back. There is a hidden agenda and it's all around us. Open Your Eyes!!

Another good account of how the biotech industry has corrupted, covered up and maligned many, in an attempt to totally control our food supply. I believe we will be seeing more and more evidence that points to such corruption and the lies we have been "fed" from the biotech industry and

sanctioned by the FDA and the government.

Reads like an intriguing James Bond script... intrigue and corruption in high places. World domination is not enough for Monsanto or the Rockefellers, they want genocide too. Kept reading each chapter hoping for some great super-hero to sort it out, but there is no movie ending here, but more like the preparations being put in place for the Four Horsemen of the Apocalypse to be released upon the world. A real Eye-opener and information everyone should know so we understand what is really going on behind the scenes of World Governments. Could not put it down till I read it through.

An absolute must read for anyone concerned about genetically modified foods and what they do to people. This is more of the politics behind it rather than a scientific review of GMO. For more science of GMOs, read Seeds of Deception. The politics behind it is just as important because the author shows how it really began with the Eugenics movement, which the NAZIs adopted as a national policy. then after that was discredited, the Rockefellers brought it into the mainstream of America and it's not just genetically modified foods, it's people too. Scary stuff, but real.

The shadow politicians cast over the so called Age of Enlightenment is criminal. Previously we went to war to kill ourselves for ideals. Today we just have to eat food to get ourselves killed by our farmers and their political protectors. Yet we still go off to war. We are living in a Dark Age of Madness now. Nowhere is the human race safe not even in our homes at dinner time. The killers now own the supermarkets also.

It is all in this book. It will change your perception on how things tick behind world politics and behind the curtains where a select group dictates on to the complete destruction of world ,nature and society. Shocking . But I am happy I understand now. Best of the best history lesson as well, as you do not learn this in school

This work is about the collusion between BIG BUSINESS (e.g., Monsanto), the nefarious elite (e.g., the Rockefellers), and "their" government to profit at the expense of our health. After I read this book, I ordered and read four more F. William Engdahl books. He's perhaps the most astute and scholarly geopolitical analyst today who authors books with integrity. If the well-being of your family matters, this could be the most important book you read.

Surpassed my expectations, what can we as a people do to 1) stop this life killing practice? 2) ensure labels be put on all HMO foods Our country is killing its citizens! Exposing our children allergens and cancer. Filling our children with estrogen, taking natural vitamins and other nutrients out of our foods. IT is frightening when the most dangerous food in our country is milk and soy and these are fed to our children from infant stage.....EYE OPENING...Gen. 1, God put seeds in all foods, our Government is taking the seeds out, while paying our farmers not to grow "real Food"
