I got this book the same day it was released, which was awesome on 's part. I have twin toddlers (~ 23 months) and they both love books. I chose this book for them because it is something different than what they already have (regular board books) and because the story interested me. I have not read the full version of this book but love this one the way it is (it is a novelty board book, abbreviated version). The book has a side bar with five buttons on it which, when pressed upon, make different sounds (engine's horn sound, monkey laughing, etc.). Here are the cons to the side bar-- The buttons are not raised, so I had to show my toddlers that pressing upon the icons will make sound. One of my toddlers really enjoyed the sound of the monkey laughing and he laughed every time he pressed that button.- The sound is not very clear and the volume is not very loud. I wish it was a little louder and a bit clearer. Back to the book itself, the side bar buttons are incorporated into the story via the use of their symbols. My toddlers are not old enough to really comprehend that, but I think an older child might enjoy pressing the corresponding buttons when the story is read. The story is sweet, short and entertaining. It's about a train that pulls into a station and various things are loaded on to it by various characters, such as monkeys, polar bears, etc. The illustrations are really nice and engaging. The page where the cars are being loaded was of particular interest to one of my toddlers, who kept pointing out the cars. They liked this book so much, I read the story to them multiple times in a short period of time. Given the fact that my toddlers really like this book, I would definitely recommend it to others!

My 2 year old loves trains and therefor loves this book. 4 stars because one of the buttons doesn't work very well. At first I thought I needed to replace the batteries (upon recieving the book) but the rest of the buttons work well so it's not the batteries. This is a great short story book perfect for my 2 year old.

Sound is terrible

My 2 year old nephew loves trains and he loved that the book came with sounds. His mom said he loves to read it before nap and bedtime.

My son adores this book.

Received boos today. Buttons don't not work... might need new battery. Book was very dusty. Very disappointed

I purchased this for my son for Christmas. I just took it out of my closet to wrap and tried pushing the buttons. They worked twice then died!

My 2 year old grandson loves this book.
