This is not classical arabic it's more close to egyptian arabic,I recommend to change the Arabic word to classical ones.

The only reason that I do not rate this at 5 stars, is I would like to see more words....and does not allow half stars. The number one reason I really like this book is because along with the picture, English word and Arabic word, there is phonetic (English) pronunciation of the word. So if you do not read Arabic, you can still learn what the Arabic word is. Just as a note, this is neither a small book nor a large one. It is very thin, but it is an awkward shape. about 8x9. Some people prefer specific dimensions, and this one is not a normal sized book. I highly recommend this book (and the other "My First Book of Words") for children and beginners of the language alike.

I just recived this book. It is an orginal arabic Not Egyptian accent. My son loves this book.

Thaaaanks

This book is a waste of money it doesn't even use standard arabic but rather Egyptian dialect to label things- the Pictish are nice but the labels are confusing for little ones as it is not clear what Images match the words- my son hates this book and I hate reading it to him- only has a few pages also

As the title of the book indicates, it is the first book of Arabic words for learn many objects names that is found in a house. It is a fun little book in English and Arabic to encourage non-Arabic speakers, especially kids to go around their houses and learn many of objects names in Arabic in fun (game likeway)as a confidence builder to encourage them to start learning Arabic. The book assigned each word with a picture and the object name is provided in both English and Arabic. I recommend this book1st Grade learning Arabic Language Step - By - Step Approach Workbook Part 1 Third Edition: This book has everything you need to know to teach First ... children or students Arabic. Excellent book. The only thing is that we have so many different dialects, you have to change some of the words to fit your dialect

It's the best book .. It has English Arabic and how to say it in Arabic in English letters

I thought it would be thicker. I'm worried my kids will tear the pages since it's so flimsy. The layout is good.
