Sally Warner (www.sallywarner.com) has published more than twenty novels for young readers, including the Emma and EllRay Jakes series. She lives in Altadena, California with her husband and their not-so-miniature dachshund, Rocky.

This is an awesome book. There is so much out there about our presidents but not so much when it comes to their wife. we learned many facts including one president did not have a first lady as she died a year before he took office. It was very interesting and educational. My children really enjoyed this book.

Used for home study. Very well received by students

It's nice to read about the women who has supported our leaders. It has some interesting facts and the kids enjoyed it as well as I did!

Sent as a gift to my nine year old granddaughter. She loved it.

This book is exactly what I had hoped it would be!

This is a great book to read with your child. It has a LOT of info about each First Lady.

The popularity of this book within my classroom surprised me a bit because the topic is not something that my students are overly familiar with. Boys and girls alike enjoy reading the facts within this book.

I gave this as a 7 year old birthday gift to my granddaughter. I know she will be able to use this information in her elementary years.
