I love this book. It arrived in great condition for a great price. It is filled with many home decorating ideas. I would like to order a follow up of this book if it ever came out.

Nice design book, a little beyond my decorating level, I'm a little more down-home cottagey

Not happy with this book at all. A bit dated. Sorry I ordered it.

Finally, a Cottage Decor book with pure class. I rarely leave reviews but felt a overwhelming need to share my thoughts. My first thought just looking at the pictures, WOW! This book is packed with many inspirational ideas that is very doable for anyone interested in creating a home in beautifully updated Cottage Style. Read this at the library and decided to buy it

I love cottage style with modern touches. I was really disappointed in this book. There are only a couple of pictures in this book that I liked. I usually love Better Homes and Garden books but this one I feel like they fell short on this one. I have seen better cottage style decorating in their magazines then in this book. I didn't get that WOW factor!

love this book
