Customer Reviews

Bought it used and it was in great shape when it arrived. I think I saved \$6Well worth it. I just wish I could play 1/10 of a % like Pagey himself. So I practice practice practice. The book is well written and since we grew up with the songs it helps a lot. Some of it is way over my head. There are 5-6 songs that are fairly reasonable to understand

For years I spent my money buying cowboy chord "made easy for guitar" fake books and never learned anything that didn't sound like campfire music. With the advent of tablature and Hal Leonard

books you can now learn an accurately played version of songs by your favorite artists. Granted they are more dollars and cents but are well worth learning the version you really want to be playing. Now, if they would just print these in a format that the book could be opened up and laid flat without breaking the binding life would be perfect.

Awesome book, best zepplin music book, tab and chord and lyrics.

Extremely detailed guitar tablature for the Led Zeppelin Best of Album. Lots of tricky guitar licks to work through and many classics that are very fun to play. I'm very glad I purchased this it will keep me occupied for a long while :)

If you are a Zep fan and a guitar player you definitely must have this songbook! It's very accurate and the choice of songs is nearly perfect. One or two absolute classics have been left out, such as "In my time of dying", but it covers all the work of this majestic band!

good selection of Zep music with tabs

This is the most complete tab for me to study Jimmy's solo.

Great Book. Clearly written, great band, great songs.
