Customer Reviews

This book was the most surprising so far. I was completely lost at the beginning of the book along with Alexis. Once we find out what happened in her lost months the world takes a dramatic change.

Good book, drew me in. I purchased rest of the series, currently on book 5. Does have a few words missing and wrong word used here and there, but nothing that made it hard to understand book.

This is a really good book that I highly recommend! The characters are interesting and it easily kept my interest. My only complaint is that I wish it was longer! I would think the story was going in one direction and then it would end up somewhere else. Very entertaining.

I find that the author knows how to make you feel has if you are going to miss something if you do not keep reading. Her books are so wonderfully written they are hard to put down until you have finished the book. Then you can not wait to start the next!

I thought the series would get better. What a waste of time and money. If you enjoy good, well written paranormal stories, do yourself a favor and skip this collection.

A war with Cliff's mother is on the way. Alexis' members have been removed and she cannot find any vampires. She is back in her hometown and cannot remember where the castle is. What next. You love it.

Great series

Can't stop so addicted to this series. I did find a few small spelling errors but I was hooked and read it in two days. Already purchased the next book
