Customer Reviews

Get Hired was the right book for me when I did my job search. With so much chaos the job market it felt good to have a structured approach to profiling my job skills and coming up with examples of when I used them. I knew I was going to take a behavioral interview and this book helped me get ready. I really liked the idea of giving honest examples of what I did at work, to sell what I could do on my next job. And there are practical tips on how to use the phone and respond to illegal questions. --Kathryn

Paul Green conducted over 5,000 interviews in a twenty year period as an Industrial Organizational Psychologist. Based on this experience, he developed the Behavioral Interviewing Seminar™, with techniques that are used today by an estimated 40% of Fortune 1,000 employers. His books include, Get Talent: Interview For Actions, Select For Results (Skilfast) and Building Robust

Competencies: Linking Human Resource Systems To Organizational Strategies (Jossey Bass). In addition, Paul has authored 8 management training videos on interviewing and problem solving, including an all-time best seller, as described by Fortune Magazine.

great book, I would recommend.

Great book! Very useful information. I recommend that everyone read this book before interviewing.

This is an easy to read but very helpful book and interviewing strategies and tactics, both as an employer and prospective employee. This is something that I will be revisiting from time to time in the future.

I LOVE this book! I've been out of work for a while, and a friend recommended it to me. I had had several interview with little success, so I thought, why not? I'm so glad I found it and did the exercises. They really made me understand myself better, and how I could apply my skills to a new position. I've been recommending this book to everyone I know who's out of a job.

Good

Dr Green has done an amazing job of putting together a unique view of winning strategies for any job interview. One of my favorite techniques is his use of "coach's tips" that provide skill tips that share exactly what's needed in specific situations. Whether you are a first time job seeker or a person who hasn't interviewed in a while, this book provides detailed methods to improve performance.

Great book!

Paul Green has written the definitive book on job hunting and interviewing. His self assessments and interviewing checklists are invaluable. Reading his book and completing the exercises gave me tremendous self-confidence as I look for a job in this recessionary period.
