You will find an imaginative collection of mendi, folk art, flowers, stars, hearts, geometric shapes, birds, butterflies and much more, all artistically combined and just waiting for you to add color. These pictures are wonderful to color just as they are, or add even more details to the images to create striking, personalized art. On the back of each illustration is a soul stirring quote to help fortify you throughout the day. Eight fully colored example pages are included to inspire your creativity, and 5 coloring tip pages, including a color wheel, have been added to kick start your imagination. This is a marvelous and uplifting book that has much to offer, it is a must have for all colorists, coloring libraries and would make a wonderful gift to someone special.

1. 30 full page Illustrations to color, printed one per page, on good quality medium weight, bright white paper
2. Each page is perforated for easy removal
3. On the back of each page is a moving and uplifting quote. Each will brighten your day just a little.
- a. This one caught my attention: (Love the life your live. Live the life you love.)
4. All the Markers and Gel Pens I tested bled through the paper, I just place a piece of paper under the page I am coloring to prevent damage to the next page.
5. 8 fully colored full page illustrations have been added to inspire you.
6. 5 Instructional pages are included at the beginning of the book and include Color Theory with a color wheel, Coloring Techniques, Pattern techniques, and ideas for personalization of your art by adding your own doodles, details and different embellishments.

I bought this book specifically to share with the coloring cancer support group I lead each week. They all loved it. The pages are very well drawn and when coloring them they blend perfectly with the relaxed, meditative energy we strive for in the group. I will continue to use these pages within the group. Good quality paper, perforated and all levels of colorists will enjoy this beautiful book.

The thick pages are great. I also like that you can remove them with no problems, due to the perforation. I also like that there is a small tutorial about how to make your own Mandala pages, and that there are already-colored pictures for inspiration and that the author tells us what kind of markers/gel pens/colored pencils she used to create the pictures. Great book!

Love this book, the pages are nice, thick, and perforated, and all pages are one-sided, so you can tear out a page and use whatever medium you use to color with, without worrying about leaking or transferring anything onto the next page. They also have colored-in examples, color schemes, blending techniques, and other useful tid-bits of information on how to make your picture beautiful and perfect like the examples given. Definitely a very "zen" type of coloring book, with tons of lotus flowers, Hindu-esque types of designs, very Bollywood type of adult coloring. You definitely feel very Zen while coloring in this book. FYI, all of these particular books from this author are amazing, detailed, and beautifully drawn, with tons of words of affirmation, and inspiration.

All of Thaneeya McArdle's coloring books are well-made and worth the money. My girlfriend loves these because of the perforated pages, intricate designs, inspirational quotes, and thickness of the pages. Overall, these books are a great buy.

Awesome for me. I'm new to adult coloring bc I'm an adult and coloring seems childish... but it's not when you use gel pens and add the word adult in front of coloring! When I was searching for a coloring book, I was looking for something that didn't have a ton of little things to color but instead had big pictures that wouldn't stress me out. The point of coloring as an adult is to de-stress not get stressed out because the pictures are crazy detailed. This book was just what I was looking for. Just enough but not too much. I'm incredibly happy with it! I'm already looking for another one to buy!

This is my first Thaneeya McArdle coloring book. She has so many out there; I just wanted to have one to try something different because the art is kind of simple (more like for teens). But overall, it is a nice addition to my collection for when I feel like coloring something simpler. Good paper quality

too. The drawings are on one side only and on the back there's some inspirational quote or something (for those who like that kind of thing).

I love the pictures in this book, in fact this is the second book by this company that I have purchased. The only problem that I have found, comes from the use of sharpie markers. I have had several other coloring books where I haven't had a problem, but the type of paper used in this book tends to allow for bleeding. I'm not talking about from front to back. I'm talking about when using different colors on the page. When coloring in a small circle, I barely touch the page and the color is running outside of the lines. It's frustrating. If you color with gel pens, crayons or colored pencils, then this isn't a problem, but if you like the ultra-fine sharpies for the pop of color, like I do, this book probably will frustrate you more than anything.
