The Virgo Personality: Understanding Your Own Innate Virgo Personality Traits And Virgo Characteristics To Become A Better Virgo Woman

Synopsis

If you want to better understand the impact that your Virgo astrological sign has on your personality and in your life, then this book is for you! Astrology is not about predestination, nor is it about fortune telling. It simply states that at the moment of your birth, the sun, moon, stars, planets, and constellations were arranged in such a way that you became predisposed to certain personality traits. Depending on what these are, you have certain ingrained strengths and weaknesses. This book is going to help you understand the nature of your astrological sign, what your innate powers are as a Virgo Woman, and how you can leverage these personality traits to your own advantage. Think of this book as a guide that can help you better understand yourself. And with that, what are we waiting for? Let's get started!

Best Sellers Rank: #383,336 in Books (See Top 100 in Books) #504 in Books > Religion & Spirituality > New Age & Spirituality > Astrology

Customer Reviews

Being a Virgo, I was intrigued by this book. I am a firm believer in astrology so this was one book which instantly perked my curiosity. It contains a lot of useful information for Virgos and provides valuable insights into their personalities. I have quite a few of the same personality traits mentioned which pushed my interest levels up by several notches. This book is definitely a fun read if you are a Virgo, to know more about your personality quirks and other general advice.

I know a lot of Virgo people - I have a lot of friends, some relatives and I bought this book trying to know more about them and what they want. In a nutshell: I tried to understand better their emotional system and the funny thing is that most of things this book says actually are just like that!

The Virgo Personality is an impressive guide that digs deep into the astrology sign Virgo. I've never followed much and was very intrigued with what I learned. I'm not a Virgo but one of my kids is. And I definite saw traits that matched up. What sticks in my head is when the author talks about the world not being black and white. So true! Bottom line is there's something in here to learn for everyone! Highly recommended!

Personally I'm not much in to Zodiac signs, but general characteristics and personalities are very accurate in most cases. My son is a Virgo and I'm a Capricorn so I wanted to learn more about our differences. This book explains symbology of Virgo and what makes them tick.

Interesting look at how people with a Virgo star sign may behave. My son is a virgo and I could see plenty of similarities between what was written here about the Virgo personality and how he acts. A useful insight.

I found this book to have really good information which was pretty accurate. A definite good read to fellow virgo's.

This was very interesting and fascinating. The description in the range I was born was spot on and fit my personality to a tee.

This book gave good insight to my sign as well as my own personality and unique traits. Good read indeed.
