Words From A Wanderer

Synopsis

Words from a Wanderer, version two, is a timeless and beautiful collection of #anote2self affirmations. This book of gems was first published in 2013 as a collection of notes and love poems. For the three year anniversary, WFAW has been redesigned, re-edited and rereleased. It is now a book of 62 #anote2self daily affirmations that readers can carry with them easily. This edition can serve as a resource for daily meditation, mantra guidance, and encouragement to its reader. Author, Alexandra Elle, created this book to shed light on the fact that indeed not all who wander are lost; some are simply still finding their way.

Customer Reviews

I gifted this book to a friend on her 30th birthday. I knew that Alex's words would resonate especially because at the time my friend was experiencing a major shift in her life. All I remember is her reading a few entries and then she began to cry. She said that this book articulated her innermost thoughts & feelings perfectly. I'm glad that I found this book fitting to gift.

This book is well worth the read. I don't have anything bad to say about the book. I often find myself re-reading it. I do however wish I had brought the paper copy.

Excellent book for therapeutic use with young teens. Short enough quotes that they can hear them and not zone out. Also good for artistic meditation. Fair warning, it is short quotes/poems on each page not a long book or long poems. Overall, I love this book and I have used it as meditation points for myself.

Love that she took the time to share her words and thoughts with us....These are things we all May say to ourselves and this book let's us know we are not the only ones and it will be okay.

It was much for the price of the book. The poems were very plain, unmoving, and basic. If you liked "Milk and Honey", just skip this one

I love this little book. I read it at a moment that was hard for me and these sweet words really help. I wish it could be longer.

I love this book and author. I read this book in one day and keep re-reading it. High recommend it.

Added to my collection. Will end up as a bedroom dresser novel to keep on hand to read over and over. Love!
