Customer Reviews

I'm really impressed with the method used in this ebook to add lots of new Spanish words to my vocabulary using the English words I already know. I also got the author's audiobook called "Learn Spanish: 3 In 1 Box Set: Master Conversational Spanish and Speak Like a Native." Between these two ebooks I am quickly learning a lot of Spanish words. I plan to get the Volcano Spanish audio version to go along with this ebook.

A better title for this book would be the *Magical Way To Learn Spanish Vocabulary*. This book revealed to me so many ways to literally add hundreds, maybe even thousands of words to my Spanish vocabulary without using flash cards, vocabulary lists or any of the likes. You just use a few language hacks covered in this book and Abracadabra: you've multiplied your Spanish vocabulary by 10X. I also have the audiobook. Using the two together works like magic.

As a Spanish instructor who is committed to seeing his students get the best results and as quickly as possible, there are two programs that I recommend to my students whose primary focus is to add

lots of Spanish words to their Spanish vocabulary quickly and inexpensively. One program is "Learn Spanish: 3 In 1 Box Set: Master Conversational Spanish and Speak Like a Native" by the same author. And this is the other program.

I buy nearly every language program by this author as soon as it is released. This is another program I am happy with. Why? Not just because of the affordable price but because this book provides a shortcut to add lots of words to my vocabulary. Don't just get the Kindle version. Get the Audible version too so that you can actually hear how the words are pronounced and reinforce the words from the different groups of cognates being taught.
