The 72 Sigils Of Power: Magic, Insight, Wisdom And Change

Synopsis

When you look at these glorious, mystical Sigils in a specific state of mind, magic happens. The magic happens within you and is reflected in your world. This book contains two types of magic. Contemplation Magic can give you great insight and wisdom, and will help you develop abilities and create new aspects of your personality. Results Magic can be used to make changes in the world around you. This is the simplest form of magic known, but it works. Each Sigil of Power contains one of The 72 Names of God. These are mighty three-letter words, written in Hebrew. These sacred names are a trigger for real magic. There is one small problem. There's a lot of misinformation out there when it comes to the 72 Names. Although there are some first-rate books, and even a few useful websites, there's a lot of poorly researched material that will lead you away from the magic. Often the names are incorrectly listed, badly drawn or their secrets are concealed. Here, the 72 Names of God are presented as visual Sigils, complete with the secret Words of Power that activate them. There are detailed instructions for working on inner change and outer magic. More than 300 individual powers are explored in this book. The Names are written as clearly and beautifully as possible, bound by a solid circle to enhance your focus. Each letter was handcrafted, based on traditional techniques and the visual requirements of modern readers. The Names in this book are the most accurate and accessible that you can find. You will discover how to: Use the names to access angelic power. Work with Contemplation Magic to gain insight and wisdom. Use Results Magic to change yourself and your world. Attract the things, people and events that will make you happy. Banish pain, loneliness, sadness and regret. Develop new character traits. Discover your true will and inner needs. When you work with these Sigils of Power you will gain a stronger connection to yourself, and the better you know yourself the easier it is for all your desires to manifest. That is the real power of Divine Magic.

Customer Reviews

I stumbled across Damon Brand's books and The Gallery of Magick by accident a week or so ago, just before this book was released and the timing couldn't have been more perfect. This little book seems so simple its almost too good to be true and it would be easy to dismiss it. But this is one of the most potent things I think I've ever read. It literally saved my life. I have followed the author's advice and let the sigils take me on my own personal journey of exploration and as such I've strayed from some of recommendations around pacing myself. I have instead followed an intuitive path of insights leading me from one name to another and sometimes back around again to the starting point. I know this book has just been released but already it's changed my internal perspective in very tangible ways. I am so grateful to the author I can't thank her enough. I wasn't a believer in magick before but I am now!

Does the magick work? YES. But will people experience the working of the magick in a very obvious and miraculous manner? NO. Or at least, not everyone. And that is the key take away. I bought this book (and many other titles by the GOM) about a month and half ago. I am not going to tell you that my life has been transformed by this purchase so radically that I am now a millionaire with six mansions and ten BMWs because that is simply not true. Rather, whatever changes that are happening are occurring within me. I followed the tactical approach to magick as suggested by the author. I started out by using the magick to shed light on what I want out of life. Then, I used the magick to guide me on what I need to do in order to get there. Then I used magick to get me to enjoy the process of getting there. Lastly, I used magick to give me greater confidence in the certainty of prosperity. No, I have not reached my goal yet; but what I do have by the application of these magick is greater sense of understanding on what I want and how to get there. And by that

understanding, I actually enjoy what I do everyday now. This is because when one knows exactly what one needs to do to get to his desired destination, work is no longer tedious. Work is actually enjoyable. Waking up at 7am in the morning no longer seems like dreadful chore for a night owl like me. Instead, I am looking forward to going to office to get more work done. The eight work hours I spend at office everyday seem to fly by, and I find myself getting a little annoyed that the time has gone by too fast. As a result, I find myself wanting to continue to work after I get home. But one must understand that I do not blindly enjoy work for the sake of working. I enjoy it because deep down inside, I have a clear sense and conviction of what I am doing it for. And this led to another very unexpected benefit. Because I enjoy working, I find myself able to focus. My monkey brain, which Buddhist uses to refer to the unfocused quality of most human minds, has calmed down. I feel peace on the inside. I am less and less being pulled in all 8 directions by the spontaneous arising of uncontrollably random thoughts, emotions and external stimulation. I feel in control of my mind, body and destiny. No, I am not the master of the universe. I can't move mountains, or destroy planets. That isn't what I am saying that I can do now. What I am saying is that I feel I can confidently navigate my own life now. To sum it up very succinctly, this book works! But its very important for readers to understand that not everyone is going to hear God speaking to you and I am sure only 1 out of 10000 people will win lottery and become billionaire by using this magick. In another word, do not expect a jaw dropping miracle. I think for a lot of people, the true value of this book is internal alchemy. It transforms you within first in order for you to be ready to receive the gifts that the universe wants to give you. And that emphasis on internal transformation is the edge that this book has over other materials on manifestation and law of attraction. Most existing literature on "manifestation" does acknowledge the importance of internal transformation as the first step towards outer manifestation. But that's where it stops. They do NOT tell you how to accomplish those inner alchemy except to suggest some very vague avenues, such as meditation. This book however gives you a very highly powerfully effective magick to accomplish such internal transformation. You won't notice it at first, but you will notice it after a few month. Its very important for buyers who want to work with the magick contained in this volume to realize that. Do not expect instant gratification. Learn to recognize the importance of internal alchemy to outer manifestation first. Learn to value how powerfully effective the tools are provided in this book that will give you such transformation. Only then can this book work for you.

Before I launch into my review, let me say words that describe this book: PRACTICAL, DESCRIPTIVE, SUCCESS, it WORKS, a FEW MINUTES, POWER, EXPERIENCE, and I have

already found Good Things from reading it. I was not sure how to title this review. Why? I was going to say, "An intense Primer". Occasionally a book will cause me to reflect upon my first year of "what is magick?" trials, insecurity, and variable-strength results. This book gives a lot of PRACTICAL strategies to deep questions I wish I had 5 years ago. But it isn't written like a Primer. "Old hands" to magick will find it useful. I was going to say, "An intense manual for the Names". It does give a lot of easy-to-find information, in a clear, straightforward way that stays on point and is DESCRIPTIVE, yet embraces brevity. But it's not dry, and Zanna writes personably. I bought it because I have had much SUCCESS using the materials presented by Damon Brand, who knows this author and interviewed her for readers on his website. They are members of The Gallery of Magick, a group of people who only bother with magick that WORKS, and that write good, clear, usable stuff. Blaise educates the reader in the viewpoint of Contemplative Magick as a subset of Results Magick, and likens them to squares and rectangles, respectively. The old Geometry adage, "All squares are rectangles, but not all rectangles are squares" came to mind quickly. You get results with Contemplative Magick, but you do not use the trappings and long rituals more commonly found in Results-based grimoires. The Magick presented here can be done in a FEW MINUTES. Or people can stretch it out. Blaise stressed that since Contemplative Magick is personal and internal-based, there is no "Ritual 1.0". She does give detailed examples for each type, Contemplative and Results, and summarizes each set of steps. I FOUND: 1) though she also cites trials and investigations by The Gallery, that her listed powers for each Name do not always match those by Damon. Why should they? If it works, it WORKS. 2) excellent renderings of the Hebrew alef-beis for each Name's sigil. 3) some things I needed to know, for me. You will find things for you, I believe, that you would want to stay in your journal and not in a review online. 4) MOST IMPORTANTLY: the sigils have POWER. I found myself staring at the characters of one Name with which I have become familiar since January, and didn't immediately realize what it stood for. This was an important test I didn't realize I was conducting until I had that EXPERIENCE. I was going to wait to write a review until I had multiple results like I have for other books, but I want people to know now that I have already found Good Things from reading it and trying it out. To sum up: PRACTICAL, DESCRIPTIVE, SUCCESS, it WORKS, a FEW MINUTES, POWER, EXPERIENCE, and I have already found Good Things from reading it.
