# ISO 16016:2000, Technical Product Documentation -- Protection Notices For Restricting The Use Of Documents And Products

## Synopsis

This International Standard specifies the protection notices which serve to prevent the improper use of documents and products whose usage is restricted. With the benefit of a uniform text, protection notices draw attention to the existence of an industrial property right or copyright. Furthermore, they clearly show that the owner of the right claims legal protection to the fullest extent and, in addition to this, they restrict the utilization of the documents or products concerned. This title may contain less than 24 pages of technical content.
