Down And Dirty Sex Secrets: The New And Naughty Guide To Being Great In Bed

Synopsis

Gen-X sexpert Tristan Taormino goes beyond the basics for an edgy and playful book of sex secrets that help adventurous couples take their sex lives a step further. From her popular columns and website to her videos and speaking engagements, Tristan Taormino has been garnering raves for her no-holds-barred straight-talk about sex. As a sex educator, Tristan has listened to thousands of people's most intimate sexual questions. Finally, she's written book to respond to those questions - no matter how taboo - giving honest, useful information that doesn't shy away from sensitive topics. All the basics are covered here, but she also tackles such topics as strap-ons, female ejaculation, the latest in sex toys, incorporating erotica into your sex life, strategies for hitting that elusive G-spot, anal sex for him and her, and BDSM. Tristan's book isn't for men and women looking for generic "have better sex" advice. It's for people who already have great sex who want to explore all the ways that they can further enhance their skills and their pleasure. *Down and Dirty Sex Secrets* is quite simply an indispensable book for anyone looking for healthy, adventurous, mind-blowing sex. Tristan Taormino is an authority in the field of erotica and sexuality. Along with working as a feminist author, columnist, activist, and educator, she has been featured as *Out* magazine's 100 Gay Success Stories of the Year and *The Advocate's* Best and Brightest Gay & Lesbian People Under 30. In addition to all of this, Taormino recently appeared in the E! Special "The Real 50 Shades of Grey."

Customer Reviews

This author has such flair for writing educational and very readable books. She is a unique intellect

and has deep knowledge of the subject matter that she writes about

From the description, this book sounds like it would be filled with interesting and different information. Instead, it was rather vanilla. You could find all this information just by walking into a toy shop. Nothing new, nothing different, nothing adventurous. Too bad, I was hoping it really would have some new perspectives. The person who wrote it clearly wanted something accessible to the mainstream, but the mainstream probably won't be buying this book and leaving it on their coffee table. I was disappointed - the info like "men will enjoy sex more if they know a woman is totally into it also" is obvious - it is true for women too! The author's attempt to make it more racy by calling it the new "joy of ***" (well, another word for sex that starts with an "f") was funny, but other than her occasional crass language, there was nothing saucy or new here. It is probably a good basic primer for any woman who has never bought a toy, her sex is usually missionary, and she is now curious to explore her sexuality, and is written in a humorous and clear manner.

Humorous, informative and thought provoking! There is always something new to learn, or at least consider, when it comes to the human mind, body and our relationships to each other's. I really appreciate Tristan's direct approach to some very touchy subjects of sexuality and her further references.

I would recommend anything written by this author. She speaks in an everyday language that is neither too scientific or too vulgar. She has all of her facts straight and doesn't fill your head up with awful ideas. If you're looking for a book that will tell you the A-Z of sex, this is your book. It covers technique, lubes, toys and everything in between. I make my co workers read this book to better understand all of the products we sell in my store. If you don't own it buy it!!!

All that really gets talked about is howw great anal sex is. This book is weak on information unless u want to know all about anal and BDSM

Taormina writes with ease and frankness, that serves to de-mystify even the most taboo of subjects. I read it in one night, simply because it was so racy I couldn't put it down. Look, I personally didn't learn that much (what does that say about me??) but for those uninitiated folk, strap yourself in and prepare to be amazed.

Love anything by this lady.

great
