I liked the product overall, but I'm afraid that some of the X-men's stats were way off. For example, Kitty Pryde has an intellect of 4? Are you kidding me? Whoever wrote her up as a character is clearly not a fan, or is simply unfamiliar with her. Some character stats were spot on, others were way off. I almost wonder if the authors started out doing meticulous research, then got bored towards the end and hurried through the last characters. Otherwise, this is a worthwhile supplement. I would suggest that a game master who is familiar with the X-men characters feel free to redo their character sheets.

If you like Marvel Comics, you'll like this.

Love the history and backstory of my favorite xman Emma Frost.... Gonna be re opening the Massachusetts Academy soon!! Team xmen

I thought this game was awesome. Too bad marvel didn't keep going with it.

Awesome book!

Good supplement to the marvel universe rpg. It adds a fair number of new powers as well as some good villains and heroes from the marvel x-teams. The mini-adventure in the back is top notch and will help inexperienced game masters and players ease into the gaming system. Not a must have, but definitely a nice addition for the marvel gamer.

It give you the info that you need for them and lets you get a feel for them.
