Customer Reviews

These are very to the point, quick ways to understand what Con Law is all about. It has been key to studying for the bar for me. I really appreciate these!

Honestly the flash cards are alright but they are too long to be very effective to really grasp the concepts and use them to study with. I used them to make my own shortened more comprehensive version to study from. It would be easier really to just use the emmanuel outline and create personal note cards.

Cards were out of order and many were missing. It took me hours to try to put them the cards In order only to find many missing. Buyer beware!

These flash cards are extremely useful for going through the in and out of con law. Also includes

some limited international sales principles as well. Lots of hypos and covers the landscape of the material well. Expensive but worth it.

I bought both boxes and I ended up with an A in my class. I know these cards helped more than any other resource, and they were one of the main reasons I was able to get that A!!!

It complements my constitutional law course very well. I recommend it to first year law students as a way to improve your multiple choice scores on exams.

I use the Law in a flash as a review for all my classes. It is a tremendous aid.

Awesome condition, arrived in good time, no complaints what more could I need...excellent!!!
