Field Guide To Ecosites Of The Mid-Boreal Ecoregions Of Saskatchewan

Synopsis

An ecological classification system was developed for the mid-boreal ecoregions of Saskatchewan through the analysis of vegetation, soil, site, and forest productivity information. The hierarchical classification system has three levels - ecosite, ecosite phase, and plant community type. Thirteen ecosites are described with further details provided by subdivision into ecosite phase and plant community type. A soil type classification system that describes 17 soil types was also developed. Management interpretations were made for drought, excess moisture, hazard, frost heave hazard, soil temperature limitations, vegetation competition, windthrow hazard, productivity, and season of harvest. Colour photos and drawings for 103 common plants of the mid-boreal ecoregions of Saskatchewan are presented.

Book Information

Paperback

Publisher: UBC Press (April 1, 2002)

Language: English

ISBN-10: 066016387X

ISBN-13: 978-0660163871

Product Dimensions: 1 x 4.5 x 7.5 inches

Shipping Weight: 14.4 ounces (View shipping rates and policies)
