Customer Reviews

Not the best book. I'm disappointed as I love wolves and was really looking forward to this. Pros: Pages are one sided. The depictions of the wolves are nice. Some are single wolves, some full body, some head shots, some of them howling, some of small packs, some with a bit of a background like trees, or a wolf standing on a rock. 29 Pictures Cons: The pages are not perforated if you wish to remove them. Biggest concern, the pictures look as if they were taken from real pictures of wolves and then an APP was used to change it to "pencil drawings." I don't know if this

the case or not or if this is her artwork, but there are parts where areas are really done in bold and it will just ruin it when coloring it. Please refer to my photos of pages and decide for yourself.

It looked as if someone photocopied pictures of wolves in black and white and put them in a book. This is horrible quality coloring pages. Some of them are so dark or blurry that it's impossible to even color them! Very disappointed in this purchase.

Love this coloring book. If you love wolves you will enjoy coloring the pictures.

I like them

Very heavily detailed pictures and not much room for coloring. I purchase for my 9 year old and she was disappointed

Very nice. Lots of details to work on. That's good.
