Customer Reviews

The series has progressed well, with more time being spent on the MC and only the salient points for the other characters being raised. The books are very easy to read and require minimal thought beyond enjoying. Interesting magical system and its use through a matriarchal system.

This series is yet another twist on magic, I love the imagination of the author & find it very hard to put the book down. What a story line the only boy who has magic in an all girl college & all he is really interested in is motorcycle mechanics. He is always fighting off someone trying to kill him Can't wait for the next installment

This is a lot of fun and a good ride for the reader who likes an adventure bases action series. I have followed it all with interest and watched the unfolding of the tale. Twists and turns bring you into unexpected places. A fun read as well as a well written one.

Really enjoyed the story. It worth a read. I will admit the main hero needs a swift kick in the pants. He whines just a little too much.

The story is excellent. The main character is for the most part very well done, but more close minded in some ways than the villains. This is really the only detractor for me. Still enjoyable read, moving on to the next one now.

Book three finishes book two nicely. There is lots of action and surprises. If you read the other books in the series and liked them you will enjoy this book.

Nice little fight with balanced romantic and slice of life. Conryu heads home to impending disaster, maby final book? Maby end of 1st arc either way a good read.

Still interesting and continues to build from the previous book. Would be best to read in order to get the most out of the story.
