Geotechnical Engineering And Earth's Materials And Processes (Engineering In Action)

Book Information

Series: Engineering in Action

Paperback: 32 pages

Publisher: Crabtree Pub Co (September 15, 2015)

Language: English

ISBN-10: 0778775348

ISBN-13: 978-0778775348

Product Dimensions: 0.2 x 8 x 10 inches

Shipping Weight: 4.8 ounces (View shipping rates and policies)

Best Sellers Rank: #3,940,923 in Books (See Top 100 in Books) #61 in Books > Teens >

Education & Reference > Science & Technology > Technology > How Things Work #523

in Books > Teens > Education & Reference > Science & Technology > Earth Science #20735

in Books > Engineering & Transportation > Engineering > Civil & Environmental

Customer Reviews

Gr 5-7-The third quartet in this continuing series of introductions to engineering looks at past and present methods of sustainable agriculture and medical devices as well as how to assess surface stability and natural hazards for large structures and how materials, from ceramics to superadhesives, are studied and improved. Each volume presents a template for systematic research: defining a problem, designing and testing prototypes, and reporting on solutions (or failures). Along with quick looks at historical highlights, each author describes the training and skills required to work in associated fields, offers case studies-ongoing efforts to mechanize artichoke harvests in Sicily, for instance-and takes readers step by step through a sample design challenge. Though somewhat overdesigned, with canted or off-center photos and yellow side notes "attached" with images of push pins or even butterfly clips for that scrapbook look, overall the presentations are orderly, methodical, and (like engineering science itself) focused on practical results. VERDICT Solid STEM choices. (c) Copyright 2011. Library Journals LLC, a wholly owned subsidiary of Media Source, Inc. No redistribution permitted.

Geotechnical Engineering and Earth's Materials and Processes (Engineering in Action) How to Draw Action Figures: Book 2: More than 70 Sketches of Action Figures and Action Poses (Drawing Action Figures, Draw Action Figures Book, How Draw Action Poses, Draw Comic Figures)

Perspectives on Earthquake Geotechnical Engineering: In Honour of Prof. Kenji Ishihara
(Geotechnical, Geological and Earthquake Engineering) Freezing Colloids: Observations,
Principles, Control, and Use: Applications in Materials Science, Life Science, Earth Science, Food
Science, and Engineering (Engineering Materials and Processes) Coupled
Thermo-Hydro-Mechanical Processes of Fractured Media: Mathematical and Experimental Studies
(Developments in Geotechnical Engineering) Seismic Risk and Engineering Decisions
(Developments in Geotechnical Engineering) Geotechnical Earthquake Engineering, Second Edition
(Mechanical Engineering) Principles of Geotechnical Engineering (Activate Learning with these
NEW titles from Engineering!) Engineering Materials 3: Materials Failure Analysis: Case Studies
and Design Implications (International Series on Materials Science and Technology) (v. 3) Seismic
Design and Assessment of Bridges: Inelastic Methods of Analysis and Case Studies (Geotechnical,
Geological and Earthquake Engineering) Seismic Ground Response Analysis (Geotechnical,
Geological and Earthquake Engineering) Forensic Geotechnical and Foundation Engineering
Geotechnical Engineers Portable Handbook, Second Edition (Mechanical Engineering)
Geotechnical Engineering: Principles & Practices (2nd Edition) Geotechnical Earthquake
Engineering Numerical Methods in Geotechnical Engineering Principles of Geotechnical
Engineering An Introduction to Geotechnical Engineering (2nd Edition) Materials Engineering and
Exploring Properties (Engineering in Action) Earth's Landforms and Bodies of Water (Earth's
Processes Close-Up)
