180 Days Of Math For Kindergarten (180 Days Of Practice)

Synopsis

Consistent practice is the best way for students to develop math skills and confidence, at any grade level. 180 Days of Math for Kindergarten provides workbook problems for each day of the school year, giving students ample time to use the skills they learn in class. Each problem is tied to a specific mathematical concept, allowing students to master skills and prepare for the next level of learning. Students will practice addition, subtraction, multiplication, and division, as well as tackling algebraic thinking, data analysis, logic problems, and more. With educational activities that are correlated to College and Career Readiness and other state standards, 180 Days of Math helps to prepare students for the future. The daily activities are great as homework or as additional reinforcement of math concepts outside of class. The 180 Days of Math workbook includes data-driven assessment tips and digital resources for parents and teachers, making diagnostics easy. Encourage your Kindergarteners to approach math with confidence, not fear, with daily practice! About Shell Education Rachelle Cracchiolo started the company with a friend and fellow teacher. Both were eager to share their ideas and passion for education with other classroom leaders. What began as a hobby, selling lesson plans to local stores, became a part-time job after a full day of teaching, and eventually blossomed into Teacher Created Materials. The story continued in 2004 with the launch of Shell Education and the introduction of professional resources and classroom application books designed to support Teacher Created Materials curriculum resources. Today, Teacher Created Materials and Shell Education are two of the most recognized names in educational publishing around the world.

Customer Reviews

Not what I thought. From the cover it looked like math activities. I did not realize it was a book of work sheets.

great material for my 4yr old! she is always eager to do her hw!

I'm homeschoolin my child and this is perfect for us

This is a fun book.... helps me teach my son basic math skills in a very methodical way.....

Description was accurate. Fair price. Fast shipping.

BOUGHT THIS FOR MY 6 YEAR OLD SON TO WORK THROUGH BFR HE STARTED 1ST GRADE. ITS AN EASY TO USE COMPREHENSIVE TOOL TO STRENGTHEN SKILLS AND ENCOURAGE LEARNING. SO GLAD I BOUGHT IT! HE LOVES IT AND LOOKS FORWARD TO WORKING IN IT EACH DAY!

Was a gift

Thanks!
