John Brierley is a former chartered surveyor and the author of A Pilgrim's Guide to Camino de Santiago, A Pilgrim's Guide to Camino Finisterre, and A Pilgrim's Guide to Camino Portugu s.

John Brierley's books give the best maps and concise overview of the Camino route! They include maps as well as elevation changes, which is very useful. I have used them to plan and walk the Camino twice.

much lighter version of the guidebook....all you need for the Camino Frances

A must on the Camino

This is a wonderful map book. Loved the elevation change maps and population info. Excellent paper quality.

Perfect for our needs!

Exactly what I expect to prepare and support!!

Very good

Not very impressed with this book. Since hikers are traveling from north to the south/southeast why would you picture the maps in the opposite direction? I'd suggest the author pick up a copy of the AT(Appalachian Trail) Companion. It's a much easier format to follow and the information is laid out in a easier to follow setup.
