Absolutely fantastic! This book is more than I ever hoped for. With over 140 pages it has more content than any other book I've bought from this category. The jokes and riddles are hilarious, perfect for all ages. There are also humorous cartoons to accompany the jokes which are great to look at. I would highly recommend this book to anyone looking to enjoy some laughs around a

campfire or during their camping trip. I bought the book for my two sons and daughter to take with them on their camping trips. Each one came back telling me how they had a great time with their friends laughing around the campfire with this book. I will definitely be buying more from this author in the future and recommend that you do as well!

Our scouts are loving this at camp outs. Good clean fun.

Our son loves to read. And he will read anything. He is in 1st grade, but is reading at a higher level. If you give him a book, he is happy and content to just sit in his room and read the whole book. And he just doesn't read his books once. He reads them over and over. He had a fun time reading this book. There is so much information in the book that he is now asking for more. He loves reading the facts and information first, then going back to look at all the pictures. Once he starts reading, he just wants to keep reading. The information and pictures are very accurate and detailed that he can sit for hours just looking at the pictures and noticing different things each time. I look forward to more books from the author so that I can get them for him. I received this e-book at a discount to read and give an honest review. My 7 year old son and I like to read all kinds of books. Physical and e-books. If my son likes the book, then I ask him what he liked about it. He will always tell me what he didn't like about the book. Some books he mostly reads without looking at the pictures but if the pictures can keep his attention, he will spend a lot of time looking at them. He is very easily distracted, and if the book doesn't interest him, then I know that he doesn't like the book. We try to give a complete and 100% accurate review of the books we read. All of the information is based on our opinion alone. We don't look at what other people say because everyone has their own opinion. If you find our reviews helpful, click Yes. Fun book.

fantastic. for my great nephew (10 yrs old) who leaves on a camping trip with his grandfather in 2 days.

First of all, it should have stated that this book is better for older kids. I bought it for my 8 1/2 year old granddaughter, and most of the jokes are way above her head, and she is a smart kid! I guess

we were both disappointed because of that.

Grandsons are very happy with this book. Listening to them laugh, I am very happy too.
