The Obama Diaries

Synopsis

Popular conservative radio host Laura Ingraham discusses President Obama's first year in office. Informative and hugely entertaining, The Obama Diaries will inspire both laughter and critical thinking about the future of the nation and the man currently at the helm. Major media outlets love to describe the president as "no drama Obama", but The Obama Diaries tells a different tale. Through these "diary entries", listeners will see past the carefully constructed Obama façade to the administration's true plans to "remake America".

Customer Reviews

Great book everyone should read it to find out what really happened the last eight years.

Interesting

If you are a President Obama supporter or a Democrat, you will not find this book something you will enjoy reading. It "shows" the President and his family and close "cronies" in a "light" they will not like very much, or DOES IT. Laura Ingraham, mixes stories and things we already knew about, yes it is true, with a bit of fiction and plenty of political sarcasm. I passed the book along to 2 other friends, one liked it, the other said, "It mocks the President." Laugh at/with it, and welcome to Politics, if you are too thin skinned, find another job.

Tongue in Cheek stuff, here. Would not recommend this to my personal friends.

Funny, enjoyable read for open minded people. I've read better but I'm not one to limit my reading to NYT best sellers. Everyone will have differing opinions about this book. Probably not a book for rabid Obama followers.

I won't say much as that might cause you to know too much before you read it./ It was GREAT!
Eve4ry chapter had me more curious!

Bought for my husband. He enjoyed reading this book. Written well .. Keeps your attention. I would recommend this book.

A fun read and gets your imagination into motion.
