Zoologist Jim Kavanagh has made a career out of introducing novices to plants, animals, the

sciences and world cultures. In addition to creating over 500 simplified nature guides, he has also authored guides to languages, cities and outdoor skills. An avid traveler and backpacker, Kavanagh's path has taken him around the world to many remote destinations including the upper , Africa, Australia, and the Arctic Circle (and this is just the As). He is also the author of a series of state-specific guides to common species and natural attractions and a children's book on evolution.

My granddaughter was so thrilled with these books. She is taking them on vacation and told me it was the best gifts ever!!!

Simple, paid more than it is worth.

No information but name and size, just quick identification of approximately 150 Kentucky birds in an 8.5 by 4 inch water resistant pamphlet that folds out to nearly two feet. This is great for the birdwatcher who can wait until they get home to look up information on the birds they have seen. Very lightweight. Just stick it in any pocket and go.

I wanted a pictorial guide that was simple and easy to use, and this is it!! Every bird I see on my birdfeeder is now identifiable.....

It seems heavy duty and water proof. It doesn't list every bird I see but overall a nice portable quick reference.

This is very easy to use and refer when a new bird comes to our yard.

Very easy to use when trying to identify birds....
