The Beautiful Music All Around Us: Field Recordings And The American Experience (Music In American Life)

Synopsis

Â The Beautiful Music All Around Us presents the extraordinarily rich backstories of thirteen performances captured on Library of Congress field recordings between 1934 and 1942 in locations reaching from Southern Appalachia to the Mississippi Delta and the Great Plains. Including the children's play song "Shortenin' Bread," the fiddle tune "Bonaparte's Retreat," the blues "Another Man Done Gone," and the spiritual "Ain't No Grave Can Hold My Body Down," these performances were recorded in kitchens and churches, on porches and in prisons, in hotel rooms and school auditoriums. Documented during the golden age of the Library of Congress recordings, they capture not only the words and tunes of traditional songs but also the sounds of life in which the performances were embedded: children laugh, neighbors comment, trucks pass by. Musician and researcher Stephen Wade sought out the performers on these recordings, their families, fellow musicians, and others who remembered them. He reconstructs the sights and sounds of the recording sessions themselves and how the music worked in all their lives. Some of these performers developed musical reputations beyond these field recordings, but for many, these tracks represent their only appearances on record: prisoners at the Arkansas State Penitentiary jumping on "the Library's recording machine" in a rendering of "Rock Island Line"; Ora Dell Graham being called away from the schoolyard to sing the jump-rope rhyme "Pullin' the Skiff"; Luther Strong shaking off a hangover night in jail and borrowing a fiddle to rip into "Glory in the Meetinghouse." Alongside loving and expert profiles of these performers and their locales and communities, Wade also untangles the histories of these iconic songs and tunes, tracing them through slave songs and spirituals, British and homegrown ballads, fiddle contests, gospel quartets, and labor laments. By exploring how these singers and instrumentalists exerted their own creativity on inherited forms, "amplifying tradition's gifts," Wade shows how a single artist can make a difference within a democracy. Reflecting decades of research and detective work, the profiles and abundant photos in The Beautiful Music All Around Us bring to life largely unheralded individuals--domestics, farm laborers, state prisoners, schoolchildren, cowboys, housewives and mothers, loggers and miners--whose music has become part of the wider American musical soundscape. The hardcover editionÂ also includes an accompanying CD that presents these thirteen performances, songs and sounds of America in the 1930s and '40s.Â

Uncovering the hidden histories of iconic American folksongs

A book which was much needed for music scholars as this many times is an underexamined genre.
I was hoping there was cd to go with the book.

Purchased as a gift. I have already read it and liked it enough to give it to friends.

Outstanding book that gives valuable insights into the people behind the music.

Meticulously researched by the intrepid Stephen Wade. Traces a variety of paths from the rural South to the digital music age. Wade is a worthy successor to the fabled Alan Lomax

Very interesting book needed for a college class.

One of the most important books published in the last 20 years and the accompanying CD is unique in its content of some little heard and some superb L.O.C. recordings. I never thought I'd see a pic. including the awesome Bozie Surdivant.'Mississippi' Max Haymes

cool collection. insane amount of detail and depth! CD/music itself is just okay.

My friend whom I bought this (and the matching cd) for - LOVED it - or so she said. Arrived quickly!
