3rd time I've ordered this Doodle book. Keeps me occupied for weeks coming up with new design concepts. Being older, I think it's important to keep your mind & hands busy. You can only do so much reading or crossword puzzles without getting bored. Since I'm handicapped with limited movement the Doodle books give me an alternative way to fill my day. And anyone who likes to doodle or has an interest in fashion or aspiring young designers will enjoy this, I'm certain.

These books are amazing would recommend all of them to any aspiring fashion designer

Horrible. I don't know what to do with this book. It must be for very creative people. The drawings are half drawn; the lines half made; an illustration has thin and thick lines... The images seem

unfinished. This book is definitely not for me.
