## **Customer Reviews**

This Level 3 reader begins with just the right question for the intended audience: Who was Martin Luther King, Jr.? Then, young readers are asked to imagine living in a time when black and white children couldn't swim in the same pools or attend the same schools. In nine sections (not numbered), the book, in bright visuals and engaging text, offers up information about Dr. King's childhood, his studies, and, of course, his work on behalf of equal rights. There are 8 Awesome

Facts about Dr. King, including this impressive stat: he gave 2,500 speeches during the last 11 years of his life. The large typeface and varied sentence structure is ideal for emergent readers, and the text is broken up frequently by stirring period photos, words to know, and a time line. A concluding quiz tests comprehension, and a pictorial glossary will help reinforce vocabulary. A graphically engaging introduction to a visionary who, luckily, left us his words to remember him by. This also offers kids the opportunity to become a Super Reader via an online rewards program.

Grades 1-3. --Kelley, Ann

"The book, in bright visuals and engaging text, offers up information about Dr. King's childhood, his studies, and, of course, his work on behalf of equal rights.... The large typeface and varied sentence structure is ideal for emergent readers." --Booklist" There are very few books about Martin Luther King that are as accessible to younger students as this one, yet it is not too simple." --Library Media Connection

A bit too advanced for my first grade classroom.

Bought this book for Black History month, for my grandson. It was good reading.

This book was informative about Martin Luther King, Jr's life and his fight for equal rights. I would like to have learned more about his day to day activities, in addition to his major accomplishments. I believe that there are some people that do not believe in equal rights for all people. I believe in equal rights for all.

My 6 year old and I found it to be very interesting, with great age appropriate facts about mlk Jr. He's very interested in history, geography, animals and dinosaurs, so this book just adds to our large collection of National Geographic Kids books!

My daughter is 8, and absolutely loves this book and others like it. Since traveling to Atlanta last year to the King Center, her interest in MLK and civil rights is very encouraging and exciting to me.

Great informational book about MLK, Jr. My First Graders loved seeing the photographs and hearing about the history.

Great book

good read
