Eric Carle is an acclaimed and beloved creator of brilliantly illustrated and innovatively designed picture books for young children. Since *The Very Hungry Caterpillar* was published in 1969, he has illustrated more than 70 books, most of which he also wrote. Eric and his wife Barbara currently divide their time between the Florida Keys and the hills of western Massachusetts.

I got this advent calendar for my little boy. I've always loved the books of Eric Carle, particularly the illustrations, and thought this one might be fun. I also got him a chocolate calendar because we all need those and this isn't that. But this is still probably the coolest advent calendar on the mass market that I've seen. It's a pop up that you open, and in it is a tree surrounded by little boxes. Each day you open a window on the calendar, and inside is either an ornament to hang on the tree or a little gift for your boxes. By the end of the calendar, you have a fully decorated tree and a bunch of

little presents underneath. I really liked this one, and am considering getting it again for him next year.

I get this every year. My son is 4.5 so I can get away with doing it every year, but I love that it's not candy. My son is still super excited every morning to put an ornament on his tree. I think it's a very creative and organic calendar. I love that he enjoys the simple thing and does not expect anything more. I will keep ordering this every year for as long as I can. I hope it becomes a tradition. One note. When it unfolds it's not sturdy to stay unfolded. I tape it down to a counter. If it's moved too much the ornaments fall off and it will not naturally lay flat. We have a great spot for it and we just tape it down.

This is really lovely! It sits on a table top and is a decoration on its own - just like the Eric Carle books. The cool thing that I didn't realize until it arrived is that each window has a little 2D ornament to decorate the central pop-up tree. So not only do kids get to open the window and see a picture, they can pop it out and put it on the paper pop-up tree. My three year old daughter was totally enchanted! It's a great twist to the traditional advent calendar - even better than I thought!

Very cute and colorful art work on this calendar. The 3D tree is fun and so are the small boxes under it when you open the calendar. It does take up space the size of two "record albums" when opened so you need a larger surface to keep it on. Each day you open up a slot to find a small picture of an item on a tab with a hole in it, that you can add to a tree branch or store in the boxes.

I got this for my grand-daughter, age 4-5. She LOVED it, my DIL LOVED it. And the pictures they sent me - it's BEAUTIFUL - very colorful and rich, eye candy. For anyone who loves Eric Carle - and who doesn't? - it's a must at Christmas time for young kiddos!

fun advent calendar, like that there is NO candy involved!

Very cute and festive. A great alternative to the sweet filled advents that are so common. The tree looks so cute covered in the ornaments and my 4 year old likes hanging them on each day. I also like that there are items to put into the presents under the tree also. Only difficulty has been that the doors are a bit tricky for my 4 year old to open on her own. I often have to get one corner started for her then she can get the rest from there.

This is a really beautiful calendar. When I decorate for the holidays, I tend to stay away from overly cutesy decor so I don't like to buy many kids oriented items. The art in this calendar is really colorful and appeals to both me and my daughter. I don't mind having it out on the coffee table where it is easy for her to reach, and we receive a lot of compliments. The ornaments do sometimes fall off the tree, but my five-year-old loves to rearrange them anyway. It is the perfect compliment to the book, but the calendar also works on its own. I am glad to have an alternative to a calendar filled with candy and my daughter is excited to see her calendar every morning.
