Grand kids (2 1/2&5) favorites

Simple, predictal and great match of text and image. Informational of the favorite foods of these animals to learn about.WELL DONE! Do you have more?

Cute book. One of my 4 year old's favorite current bedtime stories. Pretty good interesting story about problem solving. I would like an explanation for why elephants, horses, squirrels etc. are in the same proximity and for how a tiny bee was carrying all of the object in the story, but my daughter doesn't seem to mind ;)

This was a cute little book for small children. It was also written in a way to expose children to animals. Children can name the animal, and make the sound that the animal makes. We love this little book!

Such a cute and clever tale to introduce us to many mischievous (or just hungry?) animals. My children and I are now having a hard time deciding which of this author's stories we love the best!!!

This is a really cute book for a Kindergartner or First Grader. I bought it for my Grandson (first grader) and he reads it very well and the story line is very fun.

Kept my daughters attention. Simple words and topic for her to follow and also critically think ahead as to whose coming next to eat the beehive

My kids love this cute children's book. They request it frequently and enjoy reading it on the kindle through their library app.
