Customer Reviews

This wasn't quite what I was expecting it to be. It's... amusing, but I am glad I didn't spend a lot for it.

Dr Rayne's Guide To Writerly Disorders: A Tongue-in-Cheek Diagnosis For What Ails Authors is a speedy read at just 35 pages. With around 80 quick witted and fun disorders which may affect any writer at any time, this book would make a good present for an author you might know. Some of my

favourites were: Distypea *ÀfÂçÃ* â ÑÃ â œ the tendency to hit the wrong key, Mad Blogger disease *ÀfÂçÃ* â ÑÃ â œ mentally composing blog post material and tweets continually. Mad Reviewer Disease *ÀfÂçÃ* â ÑÃ â œ which I most definitely have. Proof Blindness. Reichenback Falls Syndrome *ÀfÂçÃ* â ÑÃ â œ when a character is killed but refuses to stay dead. And Technobabble syndrome *ÀfÂçÃ* â ÑÃ â œ a compulsion to insert scientific jargon which slows the book and makes little sense to the reader. Recommended to bring a chuckle to any writers or avid readers.

Having already purchased several of Rayne Hall's writing books, I knew that I was going to get something good this time. What I wasn't expecting was the hilarious list of 'afflictions' that authors suffer from. Things such as 'Catachresis', 'Catatonia', and 'Kleptoleximania' (something I apparently suffer on a regular basis). If you're a writer, I'd highly recommend checking this book out but, be warned, it may cause an extreme case of 'Procrastinitis.'

This book is as funny as Rayne Hall is on twitter. It is a tongue in cheek on all the little things that authors fret over and do while writing, or they are supposed to be writing. Take it in small doses though.

When I began, I worried that I would need to take it in small doses lest it get too silly. I needn't have. The humor was well mixed with comradery and useful tips. I suffer from Gooffitis (actually, I seem to enjoy it, but the words don't write themselves...) and Pristine Page Paralysis.
