# Tattoo Coloring Book

## Synopsis

Packed with stunning illustrations, this unique coloring book celebrates the art of the tattoo. The tattoo designs are all specially drawn for the book and range from traditional motifs like hearts, sailors, girls, skulls, roses to more elaborate compositions with a contemporary edge. A perfect gift book that will appeal to anyone who loves tattoo imagery or is looking for inspiration for their next piece of body art.

## Customer Reviews

"Gritty yet arresting. This coloring book is a visual treat you won't want to give to the kids." - Print Magazine

Megamunden is a UK-based illustrator whose commissions range from illustrations for advertising, fashion, product design, and publishing, to large-scale murals and tattoo designs. He is currently working as a Senior Designer at multidisciplinary design agency I Love Dust.

wasn't what I expected. It's a color book yes.. so that part is good. but wasn't at all impressed with the quality of designs inside. definitely would not get any of these pics as a real tattoo.. not detailed or professional enough

Last night I colored my first picture in this book....FABULOUS! The paper is heavier and off colored

tan. My gels did not bleed through at all. I looked through the whole book last night and it's going to be fun. Great pictures!

It's friggin beautiful! The touches of gold are so nice that I don't want to actually color it! It's a fun twist on the idea of coloring books and would be a great gift for a kid or adult who likes the style. Love this book as reference and inspiration~

awesome pictures on wonderful cardstock almost paper with a slight vintage color paper.. LOVE this book

This is a great book! The tattoo coloring pictures are outstanding and will be so much fun to colored. I'm not into tattoos myself, but love pictures of them. This book has some of the best I've seen.

At the moment I opened this book I was really surprised with the high quality of the art work. If you are into tattooing, you can get very good ideas from this book. The quality of the paper is also very good as the art on it. Recommend it!!

Decently thick paper, beautiful images.

Love this book and really hope other books will perhaps use this idea of foil accent colors. The slight use of the metallic gold really takes many of these pages from good to great . Some of the pics are bit cheesy for my taste but the overwhelming majority are eye catching and unique. I have recommended this book to several people and would totally suggest it for someone that wants something out of the norm to color.
