Customer Reviews

I became Justin Bieber's #1 FAN after attending a Purpose concert this year. I am truly a BELIEBER; however, I could not fully enjoy this book because of the HUGE amount of grammatical errors. I was so excited to receive it, but the errors took away from my pleasure reading. Even if the author is self-published, I wish that he would have had this book edited by a professional, or at least a smart friend.

I know that a lot of people will probably wonder why I got this book. It's not at all as we have the same name but because my little girl is a big fan of this pop icon. She's been reading this book over and over again and telling me all about it I almost feel like becoming a fan myself! I am glad though that he's managed to turn himself around. I am now more relaxed that my daughter is singing his songs again!

Justin Bieber is my guilty pleasure! I think he's great and love his music. This book goes through his whole career- from when he was discovered to releasing his most successful songs. It has quotes and various other facts about Justin that any Bieber should know.

Daughter is infatuated with JB and loved this book.

This book gives some basic information about Justin. It also talks about his music and business

skills. The book has a nice approach for talking about the beiber succes.
