In The Company Of Wolves (SWAT Book 3)

Synopsis

He opened his mouth to order her to drop the MP5 she had aimed at him, but nothing would come out. It was like she'd robbed him of the ability to speak. Shooting her wasn't an option, though. And the idea of arresting her didn't make him feel any better. There's a new gang of criminals in town who are organized and ruthless in the extreme. When Eric Becker, along with the rest of the Dallas SWAT team, ends up in the middle of a shootout, he immediately senses werewolves-a lot of them. Turns out, the new bad guys are a pack of wolf shifters. In a spray of gunfire, Becker comes face-to-face with the most gorgeous woman he's ever seen. Becker does the logical thing. He hides her and leaves the scene with the rest of his team. Jayna Winston has no idea why that SWAT guy helped her, but she's glad he did. Ever since she and her pack mates got mixed up with those Eastern European mobsters, everything had pretty much fallen apart. So what's a street-savvy thief like Jayna going to do with a hot alpha-male wolf who's a police officer? SWAT (Special Wolf Alpha Team) Series Hungry Like the Wolf Wolf Trouble In the Company of Wolves Readers are hungry for Paige Tyler's SWAT and X-Ops series: "The action is nonstop and topnotch." -RT Book Reviews "Hot and wild... Paige Tyler delivers non-stop action and thrilling romance." -Cynthia Eden, New York Times and USA Today bestselling author "The sexy wolves of SWAT are not to be missed!" -J.D. Tyler, national bestselling author of the Alpha Pack series

Customer Reviews

As a SWAT officer, Becker always knows to expect the unexpected because anything can happen in his line of work. I mean, the guy is a werewolf shifter. He knows better than most people how quickly someone's life can change. Psst...Becker. It's about to happen again. Years ago, Jayna narrowly escaped a horrific situation and ended up alone and a werewolf shifter. *Well that saves them an awkward conversation. LOL* Thankfully, Jayna was taken in by Liam and joined his pack. As a Beta, she quickly formed a family with the other Betas. They're the heart and soul of a pack. Unfortunately, Liam started using the pack for his own reasons and now they're in with the Albanian mob. Jayna and her friends believe they're helping Liam, yet are also upset about what they're being asked to do. One of these jobs for the Albanians, brings Becker and Jayna together. Becker doesn't understand why he isn't arresting Jayna, he just knows he has to hide her so she can get away later. Cooper finds out and helps Becker cover her scent. (You just have to love Cooper. He keeps helping the others as they find their mates. I can't wait until it's his turn.) Becker can't stop thinking about Jayna and tracks her down. *There's no hiding from Becker when he lets those computer skills fly.* Becker and Jayna grow close as they spend time together. (I will say...Becker is one happy wolf as Jayna seems to have an extensive collection of yoga pants. Hahaha. If you've been following the series, this part will have you cracking up because you'll know how he feels about this particular item of clothing.) Becker is determined to help Jayna and her friends out of this situation, while taking down the Albanian mob at the same time. *cough cough overachiever LOL* Does Becker free Jayna from her pack? Will her friends be rescued as well? What happens when the SWAT team finds out about Jayna? How badly will Gage want to beat on Becker for not telling him about his personal assignment? It's Gage, so I'm thinking a pretty good amount. ;-)

Thankfully, Becker has a little tidbit of information that'll quickly calm Gage down from that ledge. Oh, silly you. I'm not going to give you any of these answers. Read the book and find out. I highly recommend anything Paige writes. I do suggest you read this series in order for the sake of continuity and to ensure full enjoyment of each story though. It'll be worth it. I love these characters and can't wait to see who finds love next. Want to know a secret? *whispers* I'm really hoping

Cooper finds his One next.**I received a copy of this book from NetGalley in exchange for an honest review.**

This isn't your normal Wolves story, to read this you will have to forget most of what you have read by other authors. Ms. Tyler takes you on a world you have never seen where these wolfs are just starting to know what being one means. This throw me off but once I closed my mine to what the norm is I found this to be a very interesting book. I did find a few things a little over the top but it works well with the story. It starts with a bang and pretty much ends with one. This is an action packed read that moves pretty fast filled with adventure as packs find their way to being the best they can. I have not read any of the rest of the series and most likely had I it would have filled in a few things. This is a standalone but I am guessing you really should read this from the start of the series. I wish I had noticed it in audio I feel I would have liked it better as well as maybe understood more. I am a little confused as to what makes them turn for the first time. If it was in this book I must have over looked it. I would have liked that to have been explained a little better. I was a little surprised to see so many alphas in one place again this is not the norm and you must close your mind to all that you have learned up to this point as the author takes you though the lives of these packs to bring you a different read with many different twist. What I really enjoy was how the pack pulled together to protect each other. They knew what they were doing was wrong but they stand beside each other none leaving the other alone. I enjoyed how the SWAT team worked together and protect those who needed it even when they knew these people were in the wrong but understood they were made to do what they did. You could really feel the emotion between Eric and Jayna. Each finding out things about the other and what other packs deal with. It is a learning experience as these two are drawn together. Jayna not leaving her pack behind for any reason where they go she goes. I did enjoy the read but there is a lot of questions left up in the air for me. I am giving this a 3.5 rounding it up to a 4 star. There are a lot of good parts with lots of action along with dangerous situation that leads to explosive sexual passion. This is so different from anything of this nature that you will ever read. The author takes you on a different course where all the rules have changed and things are very different. Give it a read and see what you think.

During a stakeout our hero runs into our heroine and does the unthinkable, instead of arresting her, he hides her. In the course of the next week, our hero tracks her down and then infiltrates the gang her pack is staying with. Mob bosses, rogue wolves and uncomfortable circumstances keep both our hero and heroine on their toes. No matter what the boys have our hero's back and he has our

heroine's.

I am loving everything I've read by Paige Tyler so far, including this book! This is the third book in the werewolf SWAT series. Even though they are all about one of the werewolves on the SWAT team finding love, each story has been unique and suspenseful. This one involves Eric Becker going undercover to try to save his love and her pack from Albanian mobsters. So much fun and another great love story!

SWAT: Special Wolf Alpha Team series, keeps getting better with each book in the series. Paige Tyler adds more details to her mythology, which adds to the suspense and intrigue. I love the addition of a new pack, including adding betas and omega werewolves. Let's face it not everyone can be an alpha. (Side note - I love, love, love Megan!) Becker finds his yoga pants loving, "the one" in Jayna. She is a werewolf who believes she is a beta but there is more to her than she believes. Jayna has survived trauma and heartbreak that would kill most people's spirit, but she comes out fighting for her pack. Becker realizes you can't always follow the rules, when it comes to falling for "the one." Another great read from Tyler, this series is on my Must read as soon as possible list. Also great to see that more women are being added to the series, to balance out all the alpha testosterone.
