good price, saves us a ton!! Book is a requisite to my undertaking class, I thought the book was concise, informative and well written.

Great price for a required text of one of my classes. So far I have actually enjoyed reading the text... yes a textbook that is interesting!!!

I bought this book for school and it came within a short period of time. I highly recommend! Thank you!!

Most textbooks tend to be on the expensive side, but this one is definitely worth the money. The subject matter is presented in a very compassionate & human manner and is not dry reading at all. I highly recommend it to all people interested in bereavement work, as well as for those in the funeral industry, for which the book was intended.

I was very pleased with the condition of my book and the delivery time. This company would be a perfect choice and I would utilize them again.
