The Ultimate Dictionary Of Dream: The Hidden Meaning Of Your Dreams From A To Z: Learn About Yourself While Sleeping

Synopsis

This is the most up-to-date dictionary of dream symbols and interpretation in existence. We can use this comprehensive list of old and new symbols that appear in our dreams to understand why we dreamed what we dreamed, and what it means. Many of the symbols have a psychological connotation while others are patently predictive of the future. Our emotions and state of mind are often revealed in the symbols in our dreams. With the clear explanations in this dictionary at hand, we need no longer worry or puzzle over the meaning of our dreams. We all dream, and we all want to understand our dreams. This book is a complete lexicon of dreams aimed at helping us interpret our dreams and understand their meaning. The entries are arranged alphabetically and are based on both Eastern and Western cultural heritages, with an emphasis on Jewish traditions. We have also included newer ways of understanding dreams those developed over the past century by various psychologists and psychiatrists, such as Freud and Jung. It is up to you, the reader, to take this book and ... fall asleep! Your dreams will unfold on their own as will their meanings. You may rest assured that you will be able to interpret your next Astrolog Publishing House Visit as AstrologPH.com
