Customer Reviews

About BerlitzFor more than 125 years, Berlitz has been the most trusted name in language learning. Berlitz was built on the principle that language skills are best acquired through conversation, with a focus on real-life situations. Today, we offer self-study audio language programs, phrasebooks and dictionaries in more than 30 languages for children and adults. With more than 450 language schools in over 60 countries, Berlitz has taught millions how to speak another language.

Not really usable in the car. We are planning a trip to France shortly, and I bought this to refresh my 3 years of French taken in school. I thought it would be useful to toss the CD in the car and

listen/refresh my memory while out and about...Imagine my disappointment when the CD speaks in French only, no translations provided... so while I can understand parts of what is being said, there is no English translation to fill in the blanks or correct me if my memory is wrong. The phrases are useful indeed, but only if you have the book right there to help you.

I intensively studied this book 3 months before I went to Paris, France. Parisians were happy to listen to my French. Restaurants, hotels, stations, shops and at any public places I spoke to them in French. Those words and phrases in this book were often repeatedly used in a real conversation in Paris. After one year, I am still motivated in learning French and 2 - 3 times a week I am reading this book loudly. I am expecting another trip to France this year. It will be Marseille. Highly recommended for beginners.

Very good French learning book with CD and helpful explanations and phrases, I bought the Spanish one also.

I've studied foreign languages since the Nixon administration and even I'm forced to say that completing this course with good retention of its material in only 30 days is likely only if you're unemployed and have little else to do. However, if you're starting out in French, have studied languages before and know for a fact that you have a knack for it, this course is the best bang for the beginner's buck in terms of what you learn vs. how much you pay that I've ever seen. The amount you'll learn from this course dwarfs that of the entire set of Rosetta Stone French sets at well under a tenth of the cost. Word of warning, however: if you've never studied a foreign language before, this course can be overwhelming for the language newbie. In that case, I'd recommend getting your feet wet with *En Francais: Rapid Success in French for Beginners* (Language Immersion Institute, book and 3 CDs, I've written a review of it). This course is best suited for those who have studied languages before and have a good aptitude for it. As an aside, the German course in this series is also superb, and I've written a review on it as well.

I came across this book and was pleasantly surprised at how well it was done. The cd was great for listening practice and the book had great review exercises, French culture tidbits, and transcripts. With that said, this product is NOT for beginners. In my opinion, this product works best for someone with intermediate knowledge and proficiency to practice listening skills and review grammar points, vocabulary, etc.
