Game Of Thrones: The Noble Houses Of Westeros: Seasons 1-5

Synopsis

You Win or You Die. In the seven kingdoms of Westeros, an intricate and perilous game is being played out among its participants, the great and noble houses. Alliances are formed, wars are waged, kings are murdered, and new monarchs are crowned. *Game of Thrones: The Noble Houses of Westeros Seasons 1–5* serves as a guide to the key houses as their constant struggle for power persists and as the hierarchical structure of the kingdom evolves. The book is filled with essential information including each house's sigil, history, home, family tree, character profiles, and is fully illustrated with series photography throughout.

Customer Reviews

“The simmering tensions between Starks and Lannisters alike are outlined in detail, covering the events of the HBO show through its first five seasons. It’s a helpful tool for fans aiming to brush up their knowledge of the legacies left behind by fallen houses and the legends in the making from those who are still alive; and it provides insight into some of the show’s most game-changing twists, too.” —Hollywood Reporter

Love this book. I have my own GoT theories that this book will be rewritten soon LOL but if you are not current this book will help you put the people together with who they are and how they are related

While my wife has been ordering digital books for years, this was my first digital book order and I

was excited to read it after downloading it on my phone. All the books my wife has ordered have all been adjustable to make the font larger. I figured this book would be the same, but I haven't found a way to enlarge it on my iPhone 5. The size of the book is so small on the screen that I had to really concentrate to keep the text from becoming blurred. The book contains many reference maps that are completely illegible. I went back to the ordering page and downloaded the Kindle App on my laptop per the add that states you can watch in on any device (no mention that you can't read it on a laptop). I tested several of the books that were on my wife's list and had no problems. When I clicked on my book, a message came up that said it is not compatible with my device. Very frustrating. Maybe I am missing a step trying to enlarge on my iPhone or opening on my laptop? But, until I find a solution other than buying a tablet or buying the hardcover book, I have to recommend that you don't purchase this digitally unless you have a tablet. The extremely tiny words that I strained my eyes to read were enlightening and educating to anyone interested in the history of Game of Thrones, and I give it 3 Stars for that alone. But, I could have lived without it instead of wasting 10 bucks and hurting my eyes.

I was so excited to get this but disappointed because the images were so small I had to use the magnifier to read it. Also, it didn't seem very comprehensive.

Who does not love GoT.. the family histories as well as some details of many of the characters makes this a must read

My wife and I are Game of Thrones fans and really enjoyed the reading. A minor issue are the text on the maps inside as being not large enough and distinct enough to clearly identify. Overall a enjoyable item for GoT fans.

great book

I like the detail of each house and character.

It's a fine book, well presented and its contents are interesting. There are better book to find this info, but it's OK.
