Customer Reviews

My mother got me one of these books for Christmas and I loved it and had to get more. The pictures are printed on one side so you don't have to worry too much about bleed through when working with markers. BUT be careful with what type of marker you use, some will bleed through a lot of pages. I put a blank page behind the one I am working on to protect the other pages. I love the designs in this book, They are not too small that you worry about coloring more than one section, and they are not too simple that you are done too soon. great for relaxing the mind after studying all day.

The pages are perforated for easy removal. Nice pictures with thick paper. 30 pages and pictures

are square Mandalas that have hidden pictures in some of them (I've found a flower & bird so far). All are one sided. Can readily use markers/gel pens/water color pencils & regular color pencils on these. I highly recommend Creative Haven books.

Perforated edges, and only printed on one side so you can use ink without worrying about bleed-through (and you don't have to make a Sophie's Choice about which side to display). Four stars instead of five because some of the images are pretty similar and can feel repetitive.

This is an awesome book. I bought it for myself, but my nephew grabbed it from me in short order. I tend to like straight edges and he likes ornate swirly patterns. So while for me this book would be a two based on my taste it is truly a five-star for him.

It is in the condition as described, very good. It arrived on time. I have looked thru page by page. I cant wait to work with these mandalas!! Lines in the mandalas are not perfectly clean or crisp. A few are even child like in appearance. If that doesn't matter, then order this cheap fun book.

I love this book Detailed but not over detailed. One sided and easy to remove the pages if you so wish.

Not for me. The areas to paint are too large and not intricate enough to enjoy painting. I gave the book away after painting one page.

I so love the designs in this book. The designs are large and detailed. They are printed one per page so I don't have to worry about markers leaking through to ruin another design. It is very worth the money for hours of coloring enjoyment
