Customer Reviews

I love Time Travel stories and I enjoyed this one. But that being said, I felt this story needed to be more complex. The two women, Sasha and Kelsey, are educated and in their middle to late twenties and talked and acted like they were eighteen. To me this took away from the story, which I felt was good, just could have been better. I enjoyed the first book/Travis and am looking forward to reading Tomas. Although I had preordered this book, I received an early copy and I am by choice giving an honest review.

Here is another enchanting and beguiling read. It's follows along the same lines as Tavis. Very

entertaining and something you hate to put down once you start reading. I'm now looking forward to the next one which I have and will be going to more of Jane's other books to check out more of what she writes since I have enjoyed these two and want more.

A wonderful tale that takes up where the first novel ends. I recommend reading in order so as to keep track of the characters. This is a great time travel story, full of adventure and fun. Unexpected twists and turns. I thoroughly enjoyed it and can not wait for number three in May.

A 6 year old saves the day while Druid Bria tries to sacrifice the heroine. Seamus meets his true love in a most unexpected way. I don't usually order and buy books but this was a real essential. If you enjoy a non explicit love story this is the one for you

The book is the second in the three book series and I can't wait for the final book. I really enjoyed reading it and trying to figure out the direction it would take (and I was wrong most of the time!)

Just love this series and can't wait for book 3!!! Each of the characters are wonderful and love the adventures it takes me on.

This second book in this series expanded on the time traveling crew by adding two new characters that become lovers. The book is easy to follow and plot has good flow to it. It made it difficult to put down. I am looking forward to the next book in the series.

This was my first of Jane Stain's time travel books I read. I found it entertaining enough to buy all of the rest.
