Granddaughter loves the book

I regret buying this book. I am a HUGE GlitterForever17 fan, and have watched all her videos every time she posts for over 1 year now and have been casually watching her on and off for 3-5 years. I pre-ordered this book and was very excited to get it! I expected something amazing and unique. Something where I could cut out and decorate things like paper dolls, iPhone cases, paper animals, etc., with some basic crafts i could do with the paper. I was also hoping for a few surprise tutorials.

Instead, I got a generic activity book for kids with Breland's face plastered all over the back. But instead of just normal activities, her ~unique touch~ is to tell you to color everything with edibles! "Decorate these nails with sprinkles" under a very basic outline of a hand. "Decorate this ocean with blue food" with just a picture of a dolphin. The worst is "decorate this dress with gum". To top it off, the pages aren't perforated, so unless you want to keep all your spoiling edible creations in one place to attract ants, you have to manually use scissors to cut out each page. Finally this book could have used stickers. I would have preferred a coloring book with detailed pictures of Breland and her crafts over this, or a hodgepodge of tutorials, activities, etc. Some books which I would recommend instead: *Tear Up This Book!* By Kerri Smith (an american girl book suitable for children), any Klutz or American girl sticker/ craft book, a detailed and good quality adult coloring book, *Nerdy Nummies* for edible tutorials you can actually eat, and the *wreck this journal* series. Sorry Breland. I love your videos and find you very entertaining, but this wasn't what I was hoping for.
