Lack of mileages on trails is a real bummer. I don't know why anyone would publish a trail map with no mileages. It makes the map almost useless for planning a hike as you have to make a visual "guestimate" of how long a hike is. I'm still debating whether I'm going to send it back.

best maps! they can be refolded, twisted, wrinkled, drenched, sat on, driven on, and they still look great!

I got this as a Christmas gift for my Seattle resident son and he loves these NG maps. I visit him most summers and they have become the most important items we pack to hike and camp. Very good maps!

High quality, very good detail.

Good quality map. Easy to read and should last well.

Hi quality in content and construction

Love these maps

The map was very nice but did not show the detail I was looking for, ie (back roads) but other than that the map is very nice.
