Customer Reviews

For starters it was ridiculously expensive. But more important, if one has a working knowledge of Quito, this is WAY too much detail. It would have been terrific if they could somehow have broken this into three or four "sector" type maps so that if you were really just interested in La Mariscal, say, you didn't have to see the entire city at this level of detail.

Perfect for my needs. Came quick too.

Just what I needed for my travel. Quito city detailed on one side and northern Ecuador on the other. Large map with good readable print.

We needed a map to help us get around the highlands when we visit this November, and this one seems to be very thorough. I looked at the other reviews ahead of time, and they were very accurate. I would definitely get another one if this one wears out or I lose it.

clear map printed on paper that seems durable

It is just what I wanted. I don't know what more I can say about a map.

I have some friends who live in Quito, so as I was leaving I left it for them to use. Very thorough in a confusing city with many one way roads. This helped the navigation and planning of our trip!

It was handy for getting around Quito.
