Customer Reviews

Few write DC characters as well as Geoff Johns and his resurrection of Hal Jordan (for me the only Green Lantern) is brilliant. As is common with 21st century comics, the tone is more adult and the violence (from Black Hand and the Shark) uncompromising. But the stories are great and no one writes this character as well as Geoff.

This is a good collection, from the beautiful Alex Ross cover one is already drawn in by the soft green glow of the seductive power ring that graces the finger of Hal Jordan. I'm not sure that there's anything particularly excellent about the book but it is a good start after the likes of Secret Origin and GL Rebirth. Once again Geoff Johns really is the master of destinies as he continues to forge his way into comic book immortality by giving The Greatest Green Lantern of them all a rich and bright future.

From rebirth to blackest night. Love these volumes of green lantern. Can't wait to get to the sinestro corp war.

I didn't really care about Green Lantern until I read this book. The story is great and the art is phenomenal! This comic not only made me like Green Lantern but turned me into a Geoff Johns fan

too. After reading this I've been collecting most of Geoff John comics and he does not disappoint. His Green Lantern run is one of the best.

Great book!. I enjoy it a lot and can't wait to start with the next volume!.I haven't really read Green Lantern before, so I'm on a new territory. I've read a lot of Kyle Ryner and some of Guy Gardner but Hal Jordan... I've only saw some of him in Rebirth. This book is way better than Rebirth and is clearly putting some small info for the Blackest Night.The stories are exiting. Going from Hal Jordan getting back to the airforce, to returning to his beloved (and almost deserted) Coast City, to fighting the Manhunters (former Universe Police pre-Green Lanterns), and facing outheworld Gremlins that loves to experiment on humans. Black Hand also makes his special appearance.This is good stuff, and for the price they ask, is a sin not to get the book.

I did not think that "filler" on this story could be written so well. When I started reading I figured that it would go in order of story, by date, but instead it goes by how the story really should be told in The writers perspectives. However if you pay attention while reading you'll come across parallel stories from other heroes. I thoroughly enjoyed this read and can't wait to buy the recharge collection. The animation differs and keeps the story fresh.

Nice read

I didn't like the fact that the artists kept changing on this book... although the one issue by Simone Bianchi was exquisite. This book basically collects the beginning issues of the last GREEN LANTERN title... the one before the new 52 event. I think Johns has done a great job of reinventing the GL mythos, and it starts here, more or less. Bought this on my Kindle FIRE.
